

Sharecare 101: Health Profile

Your Sharecare profile is a living, breathing, evolving story of your health, controlled by you. To access your personal health profile, tap the You icon in the navigation bar. It's one place where you can securely store and access your biometrics and health data at any time. You can also view your personalized RealAge tips, insurance information, and more. How easy is that? Sharecare, all your health in one place.
