

# Affiliated Companies/Common Ownership Certification

## INSTRUCTIONS

The Health Insurance Portability and Accountability Act of 1996 states that all persons treated as a single employer under subsection (b), (c), (m) or (o) of Section 414 of the Internal Revenue Code of 1986 will be treated as one employer. This form should be completed by any group applying for coverage that has affiliated companies, subsidiaries or enough common ownership to apply for coverage under one entity. This form should be completed and signed by the group's accountant, attorney or officer of the company and returned along with the group contract application.

If the corporation has 80% ownership or more in the other businesses, they have a choice of filing separate returns OR a consolidated tax return. Either way, they are eligible to file consolidated returns and are considered one employer under the control group rules issued by the IRS.

If the corporation has less than 80% ownership in the other businesses, they must file separate tax returns. Since they are not eligible to file consolidated tax returns, there must be sufficient proof that they are affiliated companies under common ownership and common control to be written as one group consistent with the IRS control group rules relating to affiliated entities. Common ownership refers to one person or entity having more than 50% ownership in both companies. When there is proof that one entity owns another in excess of 50% but less than 80%, CareFirst may request that the company provide additional information, including a certification, to determine whether or not the owner exerts control over the owned entity or entities. Corporations, LLCs, partnerships and sole proprietorships are all subject to this rule and this rule is applicable to all other size segments.
