

Specialty Drugs

(Effective February 1, 2023)

Specialty drugs are medications that may be used to treat rare health conditions and require special handling (such as refrigeration), administration or monitoring. Specialty drugs are typically covered for a one-month supply. CVS Specialty pharmacy can ship specialty drugs to your home or to a retail CVS Pharmacy for you to pick up. The following is a list of specialty drugs that may be covered through either your prescription or medical plan; however other specialty drugs may also be covered. This list represents brand products in CAPS and generic products in lowercase italics. Contact CVS Specialty at 855-264-3237 for any questions about covered specialty drugs.
