Prior Authorization Request

CVS Caremark administers the prescription benefit plan for the patient identified. This patient's benefit plan requires prior authorization for certain medications in order for the drug to be covered. To make an appropriate determination, providing the most accurate diagnosis for the use of the prescribed medication is necessary. **Please respond below and fax this form to CVS Caremark toll-free at 1-855-330-1720.** If you have questions regarding the prior authorization, please contact CVS Caremark at **1-888-877-0518**. For inquiries or questions related to the patient's eligibility, drug copay or medication delivery; please contact the Specialty Customer Care Team: CaremarkConnect® 1-800-237-2767.

The recipient of this fax may make a request to opt-out of receiving telemarketing fax transmissions from CVS Caremark. There are numerous ways you may opt-out: The recipient may call the toll-free number at 877-265-2711, at any time, 24 hours a day/7 days a week. The recipient may also send an opt-out request via email to do_not_call@cvscaremark.com. An opt out request is only valid if it (1) identifies the number to which the request relates, and (2) if the person/entity making the request does not, subsequent to the request, provide express invitation or permission to CVS Caremark to send facsimile advertisements to such person/entity at that particular number. CVS Caremark is required by law to honor an opt-out request within thirty days of receipt.

- C. Is the product being requested for the treatment of neutropenia associated with myelosuppressive anti-cancer therapy? Yes No *If No, skip to Clinical Criteria Questions*
- D. Has the patient failed treatment with all of the preferred products due to an intolerable adverse event (e.g., rash, nausea, vomiting)? **Action Required: If 'Yes', Attach supporting chart note(s).** Yes No
- E. Was the intolerable adverse event an expected adverse event attributed to the active ingredient as described in the prescribing information (i.e., known adverse reaction for both the brand and generic medication)? **Action Required: If 'No', Attach supporting chart note(s).** Yes No

Clinical Criteria Questions:

1. What is the patient's diagnosis?
 Neutropenia treatment associated with myelosuppressive anti-cancer therapy
 Stem cell transplantation-related indication
 Hematopoietic syndrome of acute radiation syndrome
 Hairy cell leukemia
 Chronic myeloid leukemia
 Other _____
2. What is the ICD-10 code? _____

Complete the following section based on the patient's diagnosis, if applicable.

Section A: Hematopoietic syndrome of acute radiation syndrome

3. Will the requested medication be used for the treatment of radiation-induced myelosuppression following a radiological/nuclear incident? Yes No

Section B: Hairy Cell Leukemia

4. Will the requested medication be used for treatment of neutropenic fever following chemotherapy?
 Yes No

Section C: Chronic Myeloid Leukemia (CML)

5. Will the requested medication be used to treat persistent neutropenia due to tyrosine kinase inhibitor therapy?
 Yes No

Section D: Neutropenia in Cancer Patients Receiving Myelosuppressive Chemotherapy

6. Will the requested medication be used in combination with any other colony stimulating factor products within any chemotherapy cycle? Yes No
7. Will the patient be receiving concurrent chemotherapy and radiation therapy? Yes No
8. Will the requested medication be administered with a weekly chemotherapy regimen without breaks or between cycles? Yes No
9. For which of the following indications is the requested medication being prescribed?
 Primary prophylaxis (i.e., to be given after chemotherapy is given) of febrile neutropenia in a patient with a solid tumor or non-myeloid malignancy
 Secondary prophylaxis of febrile neutropenia in a patient with a solid tumor or non-myeloid malignancies, *skip to #12*
 Other _____
10. Has the patient received, is currently receiving, or will be receiving myelosuppressive anti-cancer therapy that is expected to result in 20% or higher incidence of febrile neutropenia? **ACTION REQUIRED: If yes, please submit documentation confirming the patient's diagnosis and the chemotherapeutic regimen and no further questions.**
 Yes No
11. Has the patient received, is currently receiving, or will be receiving myelosuppressive anti-cancer therapy that is expected to result in 10-19% incidence of febrile neutropenia? **ACTION REQUIRED: If yes, please submit documentation confirming the patient's diagnosis and the chemotherapeutic regimen and no further questions.**
 Yes No
